

## 19" TFT Flatscreen CCTV monitor

## LV-19W

The new LV-19W with an attractive silver finish is the next generation professional LCD monitor from GE-Security. A new hi-resolution, low lag panel is the heart of this high end display.

New features include Picture in Picture (PIP) from two different sources, so a single monitor can display two different display sources (VGA and Video) at the same time, plus an over/under scan option.

The high contrast and brightness LV-19W colour 19" LCD monitor is ideally suited to a wide range of applications, including most retail, industrial and commercial environments. Light in weight, compact and with a low current requirements, the LCD monitor represents the future in surveillance requirements.

An array of different compatible wall mounts and desk brackets are also available (contact your GE Security sales rep for info)
