

CHF270

Fliptop Housing 270mm & Wall Bracket IP66

Overview

Gain easy access to your outdoor security cameras with GE Security innovative fliptop-style housing. The CHF270 model accommodates a camera and lens of 270 mm.

Ease of use.

Open the housing heavy-duty latch, flip up the hinged top, and easily install or adjust a camera.

Sturdy construction

Die-cast aluminum gives the CHF270 housing strength and durability while keeping each unit lightweight. Without the blower, the housing has weatherproof ratings of IP66.

Interchangeable cable access

A plate located at the back of the housing allows you to route one or two cables through individual outlets. Avoid damage to cables while keeping the inside of the housing dry.

Environmental protection

The heavy-duty aluminum sunshield protects the camera from too much light. For environments where weather conditions demand heating or cooling, the CHF270 has a option for heater and/or blower.

Mounting options

Optional mounting brackets are available for CHF270 housing. Position a camera on a wall or in a corner, or on a pole.

Standard Features

- **Die-cast aluminum construction**
- **Weatherproof with an IP66 rating**
- **Flips open for easy access to the security camera**
- **Optional heater/blower kit available**
- **Interchangeable cable access**
- **Multiple mounting options available**
